L'artigianalità incontra l'avanguardia tecnologica.

Noi di Penta Light progettiamo e produciamo lampade di alta qualità, dal design contemporaneo e 100% made in Italy. Nel corso di tutta la nostra storia abbiamo tradotto le idee di designer ricercati e mai scontati in oggetti in cui la bellezza formale incontra l'utilità funzionale.

In tutto quello che facciamo, ci ispiriamo all'arte dei maestri artigiani che mettono cuore, abilità e conoscenza al servizio delle loro sapienti mani. Pur rimanendo fedeli alle nostre origini, sperimentiamo nuove soluzioni e grazie allo sviluppo e all'utilizzo di tecnologia all'avanguardia arricchiamo con nuovi codici espressivi ed estetici la nostra tradizione.

Craftsmanship meets the technological vanguard.

We at Penta Light design and produce high-quality lamps, with a contemporary design which are 100% made in Italy. In the course of our history we have interpreted the ideas of sought-after and never predictable designers, transforming their vision into objects in which formal beauty meets functional utility.

In everything we do, we are inspired by the art of master craftsmen, who put their heart, skill and knowledge into the service of their skilled hands.

While remaining faithful to our origins, we experiment with new solutions and thanks to the development and use of cutting-edge technology we are able to enrich our tradition with new expressive and aesthetic codes.

# GLO

Glo è un'icona della nostra collezione, una sfera di vetro che esalta il riverbero della luce, in un gioco di riflessioni e rimandi tra la lampada e lo spazio o fra le lampade tra loro. La ricca palette e le diverse misure della variante sospesa sono un invito alla composizione.

Glo is an icon of our collection, a glass sphere enhancing the glare of light, in a game of reflections back and forth between the lamp and the space or among the very lamps. The rich palette of colours and the different dimensions of the suspension lamps are a toast to creativity.

# MAMI

Tra design e arte, Mamì è una collezione dall'eleganza versatile. Merito del modulo ovale in vetro soffiato bianco, reinterpretato in chiave modernista nelle configurazioni sospese e più lineare nelle varianti da tavolo e da terra.

Halfway between design and art, Mami is a versatile and elegant collection. The white oval blown-glass body is reinterpreted with a modernist look in the suspension compositions, while remaining linear in the floor and table.

# FEEL

Feel nasce dalla combinazione di dischi tessili fonoassorbenti e steli luminosi. I dischi colorati, in tinta o a contrasto tra loro, danno vita a configurazioni sempre diverse, da sospendere al soffitto per assorbire i rumori e godersi il silenzio.

Feel comes from the combination of sound absorbing textile discs and luminous stems. The coloured discs, in matching or contrasting colours, give life to ever-changing configurations, to be suspended from the ceiling in order to absorb noise and enjoy silence.

# NARCISO

Come nel mito classico Narciso guarda la sua immagine riflessa nell'acqua, così il cono dell'omonima lampada si sdoppia per diffondere e riflettere la luce delicata del corpo illuminante. Omaggio alla musica la versione da tavolo, con diffusore audio bluetooth.

As in the classic myth Narciso looks at his image reflected in the water, likewise the cone of this lamp splits up to spread and reflect the delicate light of the lighting body. The table version is a tribute to music, complete with bluetooth audio speakers.

### Classi di isolamento / Luminaires classification

Classe I: Lampada la cui protezione contro la scarica elettrica non si basa solo sull'isolamento di base dell'apparecchio, ma su un ulteriore sistema di sicurezza che consiste nel collegamento dei componenti conduttivi accessibili a un conduttore di sicurezza (messa a terra) facente parte dell'impianto elettrico fisso.

Class I: Luminaire in which protection against electrical shocks is not just based on the basic insulation of the appliance but on an additional safety system that consists in connecting the conductive components accessible to a safety conductor (earthed) that is part of the fixed electrical system.

Classe II: Lampada la cui protezione contro la scarica elettrica non si basa solo sull'isolamento di base dell'apparecchio, ma su un ulteriore misura di sicurezza che consiste in un doppio isolamento rinforzato senza dispositivi per la messa a terra.

Class II: Luminaire in which protection against electrical shocks is not just based on the basic insulation but also on additional safety precautions consisting of double reinforced insulation without conductive parts to a safety conductor (earth).

Classe III: Lampada la cui protezione contro la scarica elettrica si basa su un sistema a bassissima tensione, che non viene mai superata. Una lampada di Classe III non deve mai essere fornita con la messa a terra.

Class III: Luminaire in which protection against electrical shocks is based on a safety system with a very low voltage supply, that is never exceeded. A Class III luminaire must never be provided with earthing.

La tensione s'intende 230V, 50/60HZ o 120V, 60HZ a seconda dei paesi.

Voltage: 230V, 50/60HZ or 120V, 60 HZ according to the country.

Penta si riserva il diritto di apportare ai propri modelli, senza alcun preavviso, modifiche e migliorie che potrebbero variare l'estetica delle soluzioni pensate.

Penta reserves the right to change, better and improve its models without notice, even if these improvements might change the aesthetic appearance of the proposed solutions.

I vetri realizzati rigorosamente a mano dal maestro vetraio rispettano le antiche e tradizionali tecniche di soffiatura. Ogni articolo è sottoposto a meticolosi controlli di qualità, pertanto apparenti difetti come bolle o variazioni dei toni di colore del vetro, sono riconosciuti come pregi e conferma della lavorazione artigianale.

The glass is hand made and mouth-blown by the master glass blower, according to the traditional blowing techniques. Each item is carefully checked, therefore apparent imperfections, such as bubbles or nuances in the glass colour, have to be recognised as merits and signs of the artisan's craftsmanship.

PENTA srl aderisce al Consorzio Ecolight per l'attuazione delle direttive WEEE/RAEE 2002/95/CE e 2003/108/CE relative alla raccolta e smaltimento delle apparecchiature di illuminazione.

Penta srl takes part in Consorzio Ecolight for the implementation of directive WEEE/RAEE 2002/95/CE e 2003/1087/CE relating to the collection and disposal of light fittings

## Dimmerazione / Dimmable

DIMMER: apparecchio con dimmer integrato sul corpo lampada o sul cavo (push button, touch, slider control, microswitch).

DIMMER: dimmable fixture by means of a switch situated on the lamp structure or on cable (push button, touch, slider control, microswitch).

TAGLIO DI FASE: apparecchio dimmerabile tramite dispositivo remoto adatto a gestire sorgenti dimmerabili TRIAC/IGBT, Il carico minimo del dimmer deve essere verificato, la compatibilità del dimmer deve essere verificata prima dell'installazione.

PHASE CUT: dimmable fixture via remote device suitable to manage TRIAC/IGBT dimmable sources. The minimum load of the dimmer must be verified, compatibility of the dimmer must be verified before installation.

0-10V: apparecchio dimmerabile tramite dispositivo remoto adatto a gestire driver di tipo 0-10V.

0-10V: dimmable fixture through remote device suitable to manage 0-10V drivers.

PUSH: apparecchio dimmerabile tramite pulsante remoto adatto a gestire driver di tipo push.

PUSH: dimmable fixture through remote button suitable to manage Push drivers.

DALI: apparecchio gestibile tramite dispositivo remoto adatto a gestire interfacce DALI.

DALI: lamp manageable by remote device suitable to manage DALI interfaces.

Lampade che montano lampadine LED retrofit sono dimmerabili a taglio di fase tramite pulsante remoto adatto a gestire sorgenti dimmerabili (ATTENZIONE: le lampadine LED retrofit devono essere dimmerabili).

Fixture Lamps that mount retrofit LED bulbs are phase cut dimmable by means of a remote switch able to manage dimmable sources (ATTENTION: retrofit LED bulbs must be dimmable).

## Note

La maggior parte delle sorgenti LED integrate nei prodotti sono caratterizzate da un indice di resa cromatica (CRI) = 90.

Prodotti con sorgenti LED integrate caratterizzate da temperatura di colore (CCT) 2700K possono essere richiesti previa verifica tecnica e valutazione commerciale.

Tutti i corpi illuminanti possono essere venduti esclusivamente con i rosini singoli, riportati nella pagina dei pendenti o con le piastre multiple riportate a pag. 218. Vale altresì il viceversa: rosini e piastre multiple non possono essere venduti separatamente dai pendenti. Tutti gli apparecchi sono testati e garantiti nella loro interezza: pendente + rosone oppure pendente/i + piastra multipla.

Qualsiasi installazione non autorizzata non viene giudicata conforme.

I tessuti fonoassorbenti con proprietà di assorbimento sonoro, permettono di migliorare il comfort acustico dell'ambiente dove vengono installati.

Per installazioni multiple si consiglia di utilizzare lampadine con medesima temperatura di colore (CCT).

Per i dati aggiornati fare riferimento al sito [www.pentalight.it](http://www.pentalight.it)

Most product-integrated LED sources have a Color Rendering Index (CRI) = 90.

Products with integrated LED sources characterized by Correlated Color Temperature (CCT) 2700K can be requested after technical verification and commercial evaluation.

All luminaires can only be sold with the single rosettes shown on the pendants page or with the multiple plates shown on page 218.

The reverse is also true: rosettes and multiple plates cannot be sold separately from pendants.

All fixture are tested and guaranteed in their entirety: pendant + rosette or pendant(s) + multiplate.

Any unauthorized installation will not be deemed compliant.

Sound-absorbing fabrics with sound-absorbing properties improve the acoustic comfort of the room where they are installed.

For multiple installations it is recommended to use bulbs with the same Correlated Color Temperature (CCT).
